LundiaUSA
Made in America

Designed by Nature

100% SOLID WOOD · TOXIC-FREE

THE SOLID WOOD DIFFERENCE

Not all closet systems are *built the same.*

Most closet companies use particle board dressed up with a fake wood print on a paper laminate. Lundia uses **real, solid American hardwood** that's made to last a lifetime.

Lundia is Eco-Friendly

All of our lumber comes from Single Tree Harvesting in New England Forests.

Real Solid Wood

- Hardwood maple frames
- Premium white pine shelves
- Hardwood maple drawers & doors
- Mortise & Tenon joinery on all uprights
- English Dovetail joinery on all drawers

Freestanding Systems

- Stands on its own like furniture
- Professional installation not required
- Easy to move or adjust components
- Modular closet system
- Made to order

Toxic Free

- No particle board
- No melamine
- No MDF
- No engineered wood
- No fiberboard
- No rubberwood

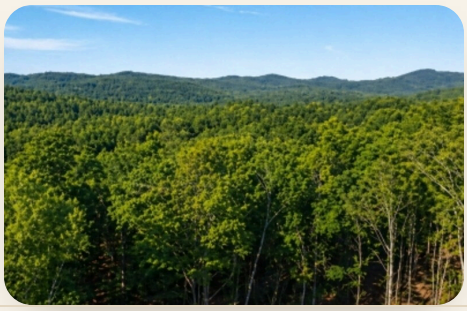

— MADE IN THE USA —

Our closets and shelving systems are made with **Real American Hardwood Maple and Select White Pine.** Our lumber comes directly from **Merrimack and Hillsborough Counties** in the New England forests, harvested one tree at a time. All production and assembly is done in the USA.

Built to Last Forever

Our New England Forest

Hardwood Maple
